FCC MAIL ROOM

Reference Docket #92-235

Gentlemen:

I am not a radio technician and know little about technical operation and frequencies. However, I do know a little about public safety and budgeting for small police agencies and feel your proposed replacement of part 90 could be a devastating blow to public safety and a financial burden that most small cities could not afford.

I respectfully request you take another look at the outcome the changes could have on public safety and small city budgets.

Sincerely,

Lester Rogers
Chief of Police

In reference to objection to your proposed replacement of Part 90 by Part 88 to revise Private Land Mobile Radio Services and modify the policy governing them. (F.C.C. Docket #92-235)
